SUMMARY

Frontend Developer at WebileApps building production React.js applications, including a mutual funds platform with investor and distributor portals. Strong in modern frontend technologies, Git/GitHub, and Java, aiming to grow toward full-stack development.

WORK EXPERIENCE

Frontend Developer, **WebileApps Private Limited** July 2025 - Present

React.js, JavaScript (JSX), HTML5, CSS3

- Developing IPDP, a mutual funds platform with dedicated Investor and Distributor portals connecting investors and distributors.
- Built portfolio management with real-time data integration and secure role-based authentication across both portals.
- Optimized the UI for improved performance and an enhanced user experience.

Frontend Developer Intern, **WebileApps Private Limited** Dec 2024 - June 2025

React.js, JavaScript, HTML5, CSS3

- Completed a 6-month internship contributing to production React components, UI improvements, and bug fixes before transitioning to a full-time role.

PROJECTS

IPDP - Investor & Distributor Portals *React.js, JavaScript, HTML5, CSS3*

- Mutual funds platform with separate investor and distributor portals, featuring portfolio management, real-time data, and role-based access.

Farmer Friendly - Agriculture Platform *MERN Stack*

- Built a MERN stack platform enabling direct farmer-to-buyer sales with fair pricing, removing intermediaries from the supply chain.
